

# Magic Hinge Box Track Mold (90 degree swing)

## Instructions - 4/19/2012

All pictures are taken from [video instructions](#) that are available for viewing on product page of website.

1. Lubricate track mold.

2. Roll out approximately 1in X .5in ball of clay 2mm thick (about 6 cards).

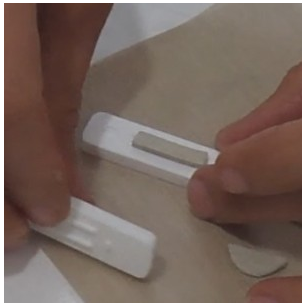

3. Use back of track mold to make impression on clay.

4. Cutting to inside of impression crop clay with tissue blade.

5. Place cut out in mold.

6. Snap both sides of track mold together where key holes meet.

7. Squeeze with fingers, open with coin from either end of mold and clean excess clay.

8. Repeat steps 6 and 7 if necessary.

9. Place to dry and remove from mold when fully dry.
